Patent Pending

Building the **World's Best** Truck Bodies & Hoists

Double Work Truck Efficiency

Combine rear and side dumping capability in one body, **the Deuce**, from Crysteel. Dump to the rear for typical applications and use the side dumping feature for hard to reach places and for easy spreading of material.

Side dump-thru operations require no extra attachments with the Deuce.

Tarp accessory includes integrated roll up mechanism and tie down hooks.

Crysteel's complete line of landscape bodies demonstrates that innovation and quality go hand-in-hand with productivity. Learn more about the value Crysteel can add to your business at www.crysteel.com.

The Deuce is Ready to Work

Extra features don't mean extra cost with **the Deuce**. A long list of standard equipment means you can have it all:

- Quick-drop tailgate
- Dump-thru driver's side or passenger side gate
- Fold-down on opposite side
- Integrated tarp brackets

For even more function and fun, get optional black plastic side boards or an optional pull or spring loaded tarp. The **Deuce** will make a statement both on the job and off!

A Powerful Lift

Whether you dump to the rear or to the side, **the Deuce** assures you'll have plenty of power. Crysteel has integrated the famous double-acting LoBoy® hoist with a swiveling bayonet hoist mount to put maximum power behind every load. A single lever controls the dumping direction.

The Deuce hoist has it all: POWER, DEPENDABILITY and VERSATILITY.

◀ Fold-down passenger side.
