# E-Tipper

# CRYSTEEL

- **Stylish, aerodynamic design**
- **Quality manufacturing for long lasting value**
- **Available in lengths from 8'-18'**
- **Full range of compatible hoists**
- **5-year warranty**

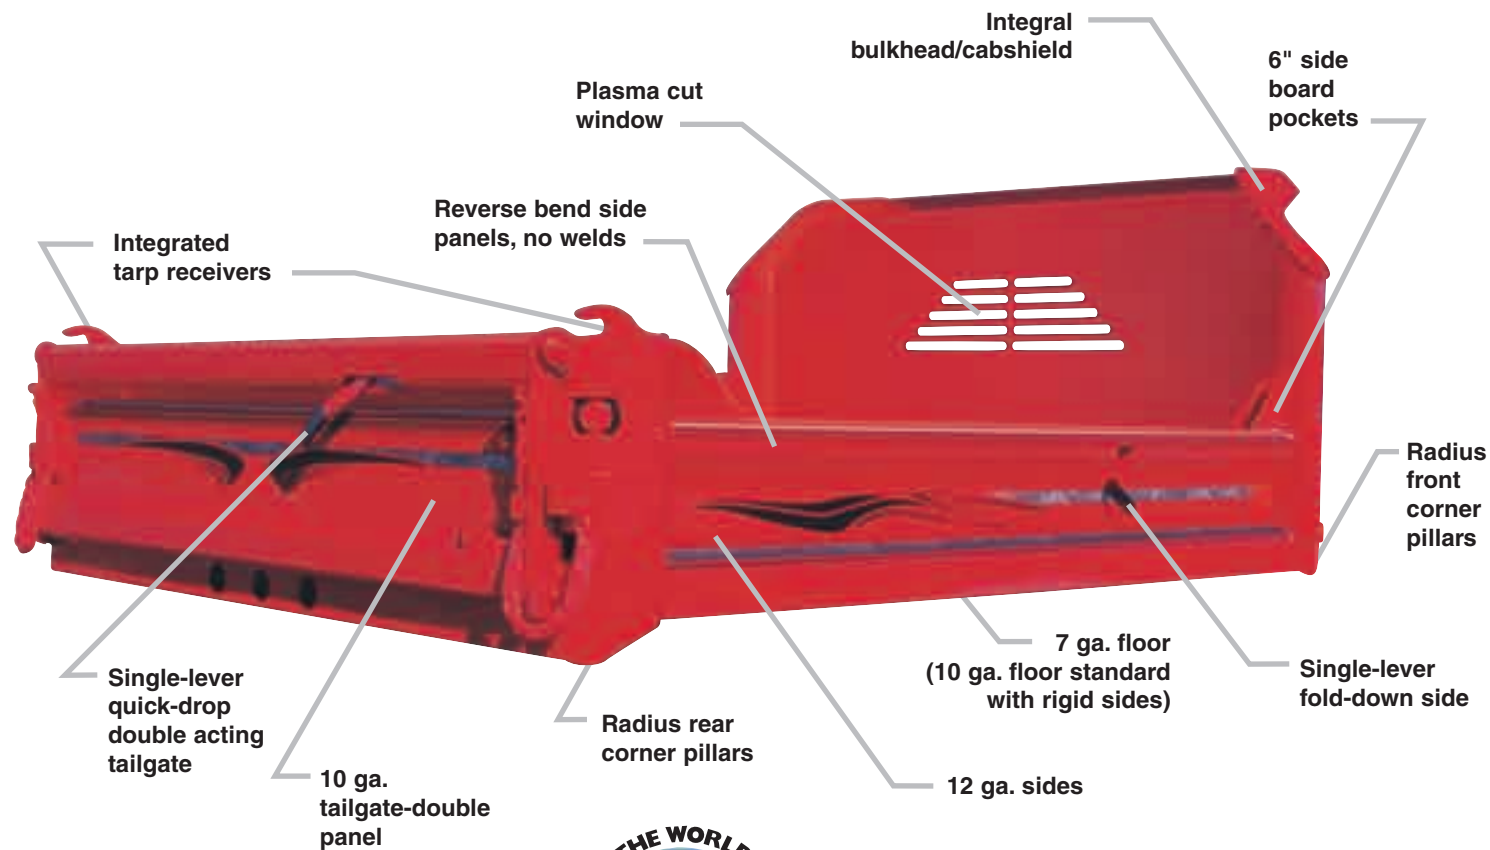

Manufactured In the USA by Crysteel, a division of

The evolutionary **E-Tipper** from Crysteel is ingeniously designed to give you all of the most desired features in a dump body—**style, strength and value**. From the sculpted front and rear pillars to the one piece seamless sides, the E-Tipper combines good looks and durability with superior design.

The **E-Tipper** line includes the popular options including western crossmemberless or interlocking understructure; fold-down or rigid sides; vertical side and tailgate ribs and much more. You are sure to find what you need with Crysteel's **E-Tipper**.

Eye catching, aerodynamic design enhances form and function.

Large open area for advertising your company.

Clean understructure, less areas for rust to develop.

## Available Options & Accessories

Aerodynamic contoured cabshield.

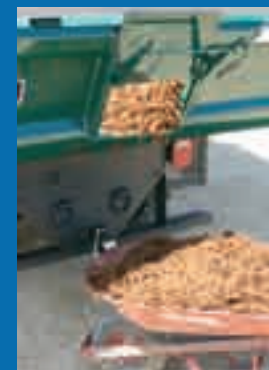

- Off-set or quick-drop tailgate hinge
- Bulkhead with or without window
- ¼, ½, and full integral tapered cabshield
- Patchgates
- Boxed top rails
- Fold-down sides with over center latch
- Pull or spring assist load cover
- Poly sideboards
- Many more options

Fold down sides come with an over center latch for smooth operation.

Fully integrated load cover option exemplifies convenience.

Sliding center patchgate controls material flow.

Taller fronts are available to accommodate the popular low cab forward chassis.

## E-Tipper Contractor Bodies

- 12'-18' lengths
- 4-8 yd capacity
- Split-folding sides offer easy access

## Exclusive Options for **E-Tipper** Bodies

The convenience of being able to dump to the side in addition to the rear is available with Crysteel's **Deuce**. Dump to the rear for typical applications and use the side dumping feature for hard to reach places. *The Deuce is the most functional E-Tipper!*

For additional corrosion protection, choose the **Tipper SS** made of 304 Stainless construction. Crysteel's Exclusive CX2 Stainless Steel Finish provides a clean and uniform finish, completely eliminating any burn marks!
